

Vision 2021-2025

To provide optimum access to learning for inpatients at Great Ormond Street & UCH

Our aim is to

minimise the interruption and disruption to children & young people's education so that academic progress and an interest in learning will continue, as far as their health permits

We believe learning must be an integral part an inpatient's admission

We foster the values of friendship and determination in pupils & staff

We personalise learning to create challenging, innovative & enjoyable opportunities for all

We empower pupils in the present & for the future

VALUES

Innovate, Collaborate, Nurture & Empower

Pupils should experience these values tangibly through their experiences as part of our school. Staff and Governors should be proud of our values and reflect them in their personal qualities and traits.

Our vision and aims provide the inspiration for the strategies and daily operations of our school

4 Key Focus Areas 2021-2025

Focus Area 1:

Strengthen the understanding of inpatient rights to education

Focus Area 2:

Develop fit for purpose and bespoke hospital school environments

Focus Area 3:

Inspire learning using innovative digital approaches

Focus Area 4:

Deliver consistent high-quality teaching and learning
